

## Wi-Fi Policy

Adopted by the Hinckley Public Library District Board of Trustees

January 13, 2014

Revised 4/10/2017, 2/8/2021

The Library's network is open to all visitors free of charge. No special encryption settings, user names or passwords are required.

To Connect:

The wireless network name is HinckleyWiFi.  
No password is required.

Any patrons that choose to use the wireless network need to adhere to all of Hinckley Public Library District's policies, which include the Internet Safety Policy. The library provides wireless internet access via an open, unsecured wireless network. It is strongly recommended that you do not use such a network to transmit personal, financial or legal data. It is not possible for the library to protect you against malicious theft or interception of such data transmitted over our network. The library assumes no responsibility for the configurations, security, or files on your device resulting from connection to the library's network. Information sent to or from your device can be captured by anyone else with a wireless device and appropriate software.

Library staff may provide limited functional assistance with wireless access (such as how to connect), but cannot troubleshoot a privately owned wireless device. There is no guarantee that you will be able to make a wireless connection. If you need assistance, contact the manufacturer of your laptop or software. The library is not responsible for any changes you make to your computer's settings.

Any restriction or monitoring of a minor's access to the library's wireless network is the sole responsibility of the parent or guardian.
